# Markets

## ROOFING & METAL BUILDING

Metal roofs and buildings contain numerous seams that often require detailing with a reinforcing when repainting or recoating. 4EvaSeal Fabric Backed Tape makes detailing these areas a breeze and is intended to be used where paints and coatings require a reinforcement.

Where a seal is needed and no coatings are to be applied 4EvaSeal Multipurpose Tape is the **best choice** and comes in a **variety of colors** to match the structure.

- Variety of colors and sizing
- Bonds to single ply roofing membranes
- Ideal for use with acrylic roof coatings
- Paintable
- UV stable
- Gasketing and sealing
- Variety of colors and sizes

## AGRICULTURAL

4EvaSeal Tapes are ideal for repairing rips, tears, holes, and damage to agricultural tarps and covers. The tapes are easy to use and form a **permanent seal** to keep water from damaging valuable assets. The tapes come in a variety of colors.

We also offer **custom coating** of your tarp or lining material with our 4EvaSeal adhesive.

- UV Stable
- Bonds to most tarps and covers
- Permanent seal
- Variety of sizes
- White, black, tan, gray, aluminum

## WATERPROOFING & CONSTRUCTION

There are an endless number of uses for peel and stick tapes and membranes to **seal the building envelope**.

4EvaSeal tapes can be used for flashings, bonding materials, detailing, filling gaps and seams, and for **roof repair**.

The product is available in a variety of forms and can be used with other waterproofing systems or as a standalone solution.

- Gutters
- Window and door flashing
- Pools and ponds
- Skylight
- Gasketing and sealing
- Paintable
- Detail tape for liquid waterproofing
- UV stable
- High temperature butyls

## RV/AUTOMOTIVE & TRANSPORTATION

RV's, Campers, box vans, and trailers are subject to hurricane force winds that can drive moisture through the smallest of gaps when traveling at highway speeds. Often the roofs of these structures develop leaks as the vehicle ages.

4EvaSeal Multipurpose Tape **stops leaks**, stays bonded, and prevents water intrusion. It is also extremely **flexible and UV stable**.

- Roof repair
- Skylights
- Slide outs
- Flexible
- UV stable
- Colors to match roof
- Permanent seal

## HVAC

4EvaSeal is ideal for stopping leaks in HVAC systems. Our tapes can be used to seal drip pans, air handlers, cooling towers, and ducts. The unique adhesive technology in our tapes is suitable for constant exposure to moisture and immersion environments. Once applied the tape forms a seal **engineered to perform for many years**.

- Impermeable seal
- Prevent leaks
- Corrosion protection
- Available in a variety of colors
- Paintable
